

The REFI European Awards reward real estate private equity funds and service providers for outstanding performance and overall excellence. Through a rigorous two-stage judging process, the winners are selected using both widely-used performance metrics as well as qualitative factors.

This ensures that the genuinely **best performing funds and service providers are honoured**, providing them with unrivalled recognition from across the real estate investment sector.

The shortlist has been announced. [View the 2020 shortlist here.](https://refieuropeanawards.awardstage.com/#Shortlist)
(<https://refieuropeanawards.awardstage.com/#Shortlist>)

The winners announced at a dinner and evening ceremony on Wednesday 5 February 2020 at Banking Hall, London.

Honouring the standout performers in real estate investment

REFI Europe has revamped and revitalised its awards programme for 2020 with the launch of the REFI European Awards (formerly PIE European Property Awards). The awards honour real estate private equity funds and service providers for exceptional performance and overall excellence.

Utilising widely-used performance metrics as well as qualitative factors, the awards will celebrate the genuine standout performers in the real estate investment market.

Our new, two-stage judging process will ensure all entrants are rigorously assessed and only the true winners selected and honoured.

Both shortlisters and winners will gain unrivalled recognition from across the industry, and demonstrate to prospective new investors and clients that they are the leaders in their field.

Entries are now closed. The shortlist will be announced in mid November.

JUDGING PROCESS

The judging for the 2020 Awards will be a two-stage process.

The first stage will use purely the quantitative elements to derive leader boards from the entries.

These leader boards will inform and populate the shortlists for each category, who will go through to the second stage of judging.

For the second stage, a panel of independent and impartial judges from investors and consultants will ensure firstly that the data is correct and will use their knowledge and the qualitative elements of the entry process to decide on the winners by category.

How the judges are chosen

REFI Europe's team of independent, external judges is selected to bring a diverse range of in-depth industry expertise to the judging process. All judges are required to sign a disclaimer form to keep all submitted information and the winners confidential and are obliged to declare that they have no conflicts of interest prior to judging.

How categories are allocated to judges

Groups of judges are allocated categories, which are aligned to their specific market knowledge and avoid conflict of interest. Each group of judges have no access to the submissions or results of categories they are not involved in judging.

Submission feedback

REFI Europe do not share individual judges' scores and comments, however explanations for the winner of each category will be provided online after the event.
